BIG

blue guide to
washroom,
janitorial and
cleaning supplies

Hello you

Welcome to our big blue guide to Washroom, Cleaning and Janitorial Supplies.

Since 1995, Futures Supplies have established the standards of expertise and innovation that still define us today. Our long term commitment, stability and performance have made Futures Supplies a leading washroom, cleaning and janitorial supplier.

There are many companies to choose from in our sector, so we have put together this handy guide to help you select the best possible partner....

1

at your service

Service

Service defines a business. It generates a positive "gut feeling" that drives us to re-visit, buy more and want to experience again and again. All businesses say they do it, but not all deliver.

Why us? Well we believe it's about having a deep rooted passion for customer care from people who are committed, engaged and take it personally.

Imagine your business is the Lord & Lady of the Manor and we are your Butler, err... Randolph!

2

perfect fit

Quality

You want clarity, not mystery and uncertainty. Does it do what it says on the tin? Yes, because we offer you the best possible products for the job.

High quality, affordable and sustainable products are more important now than ever before, A combination of these qualities along with individual attention and time given to your specific needs is what ensures we completely understand your requirements and tailor a solution that fits you perfectly.

3

value added

Value

For over 15 years we have seen, tried and tested hundreds of products. This research and product knowledge enables us to recommend the right product for the job.

We work closely with cleaning contractors, facilities managers & end users so that we can build on our knowledge and offer the best advice.

So next time you have a toilet roll jam, sticky, smelly, ugly or unsightly cleaning challenge, give us a call, we'll zip-up our anorak's and provide you with some answers.

4

the extra mile

Reliability

Why can you rely on us? Is it because we are award winning? Because we have carbon neutral status? Or because of our 24/7 website which provides full budget control facilities?

All of the above. But most of all it's about being consistent.

It's our consistency of approach, care and purpose that makes us a trustworthy and dependable partner, though we know that expectations are always rising, which is why we always go that extra mile to make sure your more than just satisfied... you'll be thrilled to bits!

5

doing our bit 

Environment

It's 4.6 billion years old and 70% of it's surface is water.

We have been committed to long-term sustainability for many years. Breaking old habits can be tough, but once you start, it's plain sailing.

We have more than just a environmental policy, we have taken action across all areas of the business, from accreditation to ISO BS EN ISO 14001, the Ecover products on our shelves - to how our team travel to work and how we deliver our products to you.

We like to do our bit to cuddle the world!

Simple really!

We hope you have found this guide useful. Please keep it somewhere safe, or give it to a colleague, or contact us for some more information, even to ask for additional copies.

Whatever you decide to do, we would love to hear from you.
