Numatic

The NuKeeper Twin Series is a genuine exercise in downsizing from the outside without downsizing from the inside.

The NuKeeper Twin Series (NKT) is compact in proportion whilst big on capacity. Constructed with Structofoam, using co-polymers for high-impact strength and high-quality recycled plastic with ReFlo Technology. Every detail is considered with the environment and user in mind... Flexi-Front enclosure, rotating side buffers to protect walls and even a Low Level (LL) version when visibility during transit is a consideration. Compact in size... big on storage.

Built to Last

Unique Structofoam construction using co-polymers for high-impact strength.

Sustainably Engineered

Made from high-quality recycled plastic using ReFlo Technology.

Increases Productivity

Perfect for large amounts of linen and supplies.

Ease of Transit

Rotating buffers protects walls and doors from bumps and scrapes.

Total Uniformity

Provides professional approach to integrated system planning.
