

Xtra Protect

INFORMATION PACK

2021

WWW.XTRAPROTECT.COM

XtraProtect is a unique 2-in-1 sanitiser for you to sanitise and protect your hands, touch points and surfaces at home, at work, out shopping and on the move.

XtraProtect lab certifications are available upon request.

ONE SANITISER
FOR ALL USES

Protect

HANDS

Spray 1 or 2 times onto hands. Spread from the fingertips over the whole of the hands and up to the wrists. Suitable for wall mounted dispensers.

TOUCH POINTS

Spray directly onto the surface, wipe and leave to dry for 2 minutes. Perfect for desktops, packages, vehicles, shopping trolleys, gym equipment and other surfaces you touch.

SURFACES

Spray directly onto the surface, wipe and leave to dry for 2 minutes. Suitable for fogging machines and pressure pumps.

XtraProtect is a non-alcohol based sanitiser, which has many efficacy and safety advantages over alcohol based sanitisers, particularly in industries where flammability or ingestion is a risk factor in use or storage. This includes hospitality, transport, catering, medical, education and other sectors.

Product	Lab Tested to kill >99.99% of bacteria and viruses	30 Second antibacterial kill	Effective on soiled surfaces	Multi-Day antibacterial action	Travel Safe (Non-flammable)	Fogging	Dispensing	Biodegradable	Non Toxic	Halal Certified
XtraProtect	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
Alcohol Sanitisers	✓	✓	✗	✗	✗	✗	✓	✗	✗	✗

Alcohol sanitisers/gels are typically used for hand sanitisation. Certain alcohol sanitisers are also marked for surface sanitisation but will evaporate almost immediately.
