

EC4 Sanitiser New Formulation

Super concentrate sanitiser

Multi surface, unperfumed, cleaner and disinfectant.
For use in the food industry, healthcare establishments,
nursing homes, schools and leisure centres.

Passes EN 14476; effective
against enveloped viruses
including Coronavirus

Passes EN 1276 at 1:60 with
a 1 minute contact time

- Available in a portable easy to handle 1 litre bottle with 10 ml dosing cap.
- Removes general soiling and kills bacteria in one application.
- Helps to prevent the spread of contamination.
- Passes EN 1650 against yeast; microbiological profile available.
- Ideal for use on worktops, chopping boards, refrigerators and kitchen equipment.
- Low dosage, very economical in use. Peel and reveal multi language label.
- 1 litre provides 100 trigger spray bottles and 100 x 1 litre buckets of solution.
- Supplied in a 5 litre container for e:dose dispenser or to refill the 1 litre dosing bottle.
- Colour coded, screen printed trigger bottles available.

DOSING METHOD:

Dispense the specified amount of product by pushing the button once on the e:dose dispenser to dose 10 ml or by using the 10 ml dosing cap on the 1 L bottle.

DISINFECTING HARD SURFACES & EQUIPMENT (1:60 or 1:100):

Add 1 x 10 ml dose to 600 ml water in an EC4 spray bottle.

Spray surface and leave for 1 minute then wipe with a single-use cloth.

Alternatively, add 1 x 10 ml dose per 1 L warm water in a bucket.

Apply to surface with a clean cloth or mop, leave for 5 minutes and allow to air dry.

FOR ENVELOPED VIRUSES, INCLUDING CORONAVIRUS (1:30):

Clean surfaces with detergent prior to disinfection. Add 2 x 10 ml dose to 600 ml water in an EC4 spray bottle. Spray surface and leave for 5 minutes then wipe with a single-use cloth.

Alternatively, add 3 x 10 ml dose per 1 L warm water in a bucket.

Apply to surface with a clean cloth or mop, leave for 5 minutes and allow to air dry.

USE DISINFECTANTS SAFELY.

ALWAYS READ THE LABEL AND PRODUCT INFORMATION BEFORE USE.
