

Soft Fabric Cleaner

Soft Fabric Cleaner utilises specialist enzymes and microbes to break down organic-based deposits, removing stains and eliminating associated unpleasant malodours.

Cleaner

- Triple action: cleans / lifts stains / breaks down deep rooted stains at the source and deodorises
- Fast enzymatic action provides immediate odour relief
- Microbes colonise the porous surface and provide long lasting residual action for the complete degradation of stains and removal of odours
- Specifically designed to tackle organic based stains and odours from:
 - humans and pets (vomit, faeces, sweat and urine)
 - food based spills (milk, red wine, egg, gravy, sauces and fruit juices)
- Suitable for use on most colour fast surfaces

Leaner

- Concentrated formula reduces the cost per use and extends the life of fabrics.

Greener

- Sustainable ingredients
- Reduces CO2e
- Reusable PCR packaging helps reduce single-use plastic waste.

Soft Fabric Cleaner

Use Instructions

Soft Fabric Cleaner is supplied in a concentrated format and should be applied neat over the affected area for pre-spotting and diluted 1:10 for general cleaning of soft furnishing and carpets etc.

Use a microfibre cloth to agitate gently and help lift the stain. No need to rinse surfaces following application. Test for colour fastness on a small area first.

Safety & Storage

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet (SDS). Only for professional users/specialists. Store in original closed containers away from extremes of temperature.

Available Pack Sizes

BH017
(2 x 5L)

The UK's leading manufacturer of Biotech cleaning products

- The UK's leading manufacturer of Biotech cleaning products
- Technologies are renewable and sustainable, sourced from plant extracts, fermentation and manufacturing by-products reducing CO2e and environmental toxicity
- 100% UK Manufacture and supply chain
- Post Consumer Recycled bottles provide a circular life cycle reducing CO2e and removing physical plastic pollution
- Our cardboard is made from 100% recycled material, is fully recycled and FSC certified (Forests for All Forever)
- ISO 9001:2015 & ISO14001:2015
- Zero waste to landfill
- Accredited to Carbon PAS2060, we offset our carbon with UK tree planting and VCS projects within the Amazon
- 100% Readily Biodegradable
- All manufacturing wastewater is treated
- Our technology has minimal aquatic toxicity
- Never tested on Animals
