

# CRAZY ABOUT CLEANING

# ABOUT GREENSPEED

## MISSION & VISION

**MISSION:** CLEANING THE WORLD WITH CARE, TOGETHER

**VISION:** HYGIENE SOLUTIONS TO BOTH HEAL AND  
BENEFIT HUMANITY AND NATURE

## VALUES

PASSIONATE

REBELLIOUS

CARING

## PRODUCT CONCEPT

CIRCULAR

HEALTHY

SURPRISINGLY  
EFFECTIVE

# OUR PRODUCTION

## DETERGENTS:

Our detergents are produced in our ecological factory in Boulogne-sur-Mer, France. We prefer to buy the ingredients from European partners to minimise the environmental footprint.

The factory operates with 100% renewable energy sources. The 'green roof' and the sustainable building materials ensure excellent thermal insulation.

The green roof of the factory

## MICROFIBRE PRODUCTS:

The production process of the Nordic Swan products complies with strict environmental requirements. Manufacturing is carried out according to ILO (International Labour Organization) standards, ensuring socially responsible manufacturing. The ILO is a United Nations agency that specialises in labour standards.

We ensure that all employees can work in healthy conditions. For this we have the production sites audited according to the Sedex 4-pillar scheme for social monitoring of working conditions.

# CORAL RESTORATION WITH GO OCEAN

## TABS FOR CORAL RESTORATION:

The oceans are **the driving force behind a healthy world**. Coral reefs are an essential part of this. Unfortunately, they are threatened globally by factors such as climate change, pollution and poor water quality. They urgently need our help.

That is why we have been partnering with Go Ocean since 1 January 2024. We donate part of the **revenue from our Tab range to their coral reef restoration project**.

Every time you see this icon, you're directly contributing with Probio Tab to the Go Ocean project for coral reef restoration.

## WHAT DOES GO OCEAN DO?

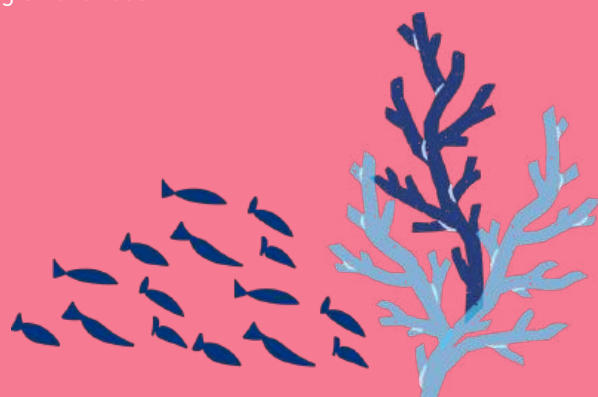

Go Ocean selects and supports global projects aimed at restoring vulnerable ecosystems. It works together with local communities to achieve ecological gains and generate socioeconomic benefits.

Go Ocean is committed to:

- Supporting and accelerating the restoration of our coastlines and marine ecosystems
- Strengthening the resilience of our ocean
- Protecting the habitat of marine wildlife
- Reducing local threats, engaging residents and tourists and raising awareness

Follow our restoration

Certified

Corporation

# B CORP CERTIFIED

## GREEN TO THE CORE

Greenspeed always goes for the 'green' approach - it's in our DNA. That is why we are proud to be **part of the B Corp community**.

This milestone confirms that we meet **strict social and ecological standards**. You don't just become a B Corp - you have to prove that you are positively impacting the world and the people around you.

What makes B Corp so special? It looks at the total picture: from management and employees to community, environment and customers. The 'B' doesn't stand for '**Benefit for all**' for nothing!

## TOGETHER FOR POSITIVE IMPACT

B Corp gives us a compass. It shows where we are now and the steps ahead of us.

With a score of 82.5, we are well on our way, but this is **only the beginning**. By 2030, we want to achieve a score of 90. Together, we will go for even more impact!

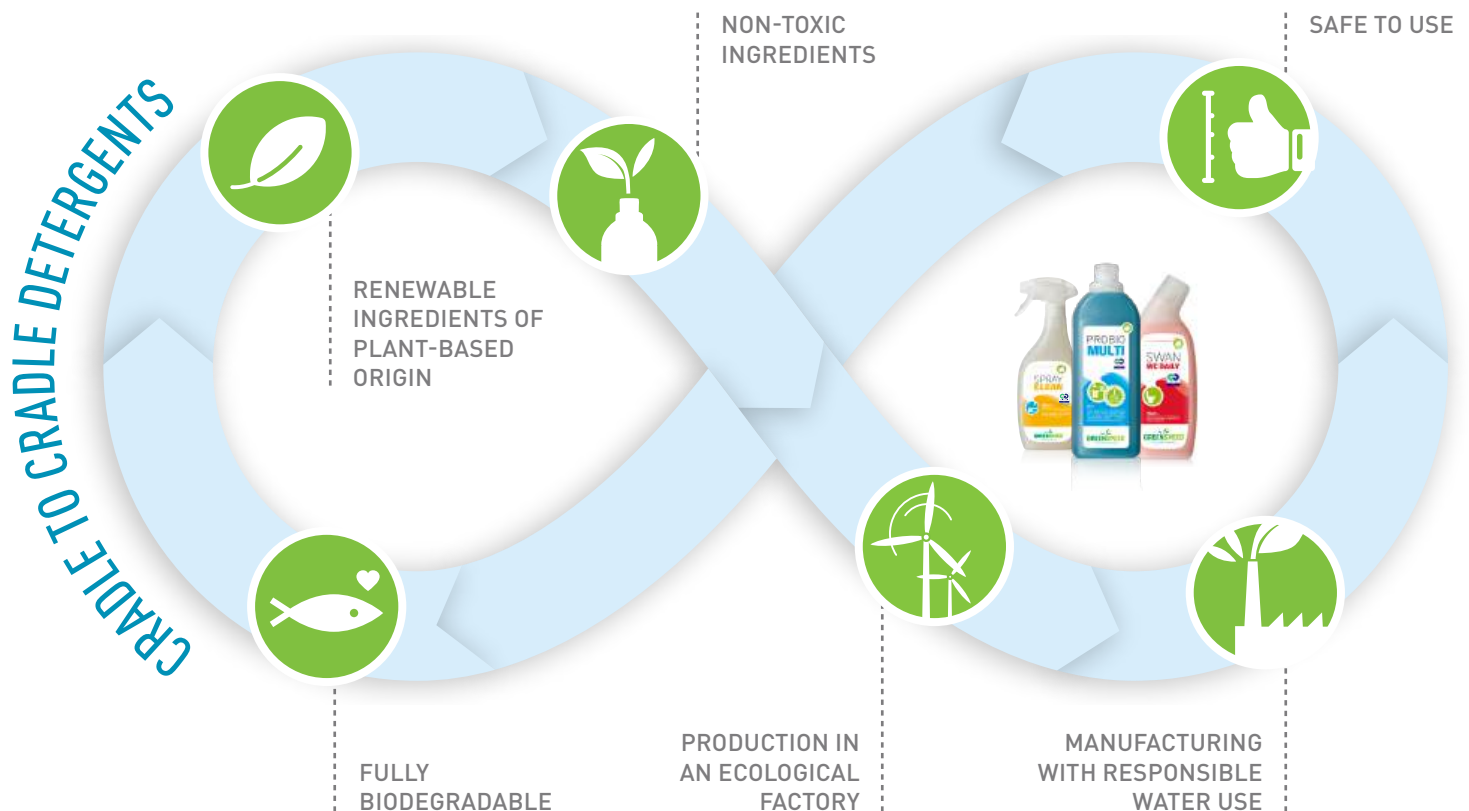

[More on B Corp](#)

# CIRCULAR PRODUCT CONCEPT

We are committed to making our products fit within the circular economy model, where there is no waste. The circular system has two material cycles: a biological cycle (residues return safely to the natural environment after use) and a technical cycle (product components can be reused at a high quality level). With our Cradle to Cradle detergents and 100% circular Re-belle microfibre cloth, we're the pacesetters in this area.

## BIOLOGICAL CYCLE

## TECHNICAL CYCLE

### RE-BELLE MICROFIBRE CLOTHS

RECYCLABLE AT END  
OF LIFE

LONG  
SERVICE LIFE

# CRADLE TO CRADLE CERTIFIED®

10 years of expertise

Our aim is to do everything right. In 2012, as pioneers we achieved certification for Multi Daily, San Daily, Multi Forte, Swan WC Daily and Multi Spray products. These were the first professional cleaning products worldwide to be Cradle to Cradle Certified®. In 2017, we continued with our dream of making cleaning circular. Our Re-belle microfibre cloth with Cradle to Cradle Certified® Bronze was next in line.

## OUR DREAM

Greenspeed's vision is in line with the Cradle to Cradle philosophy. We have the ambition to develop hygiene solutions with a positive and restorative impact on people and the environment. We want to make products where there is no such thing as waste.

## WHAT WE DO

We are always looking for healthy and recyclable materials that fit within the biological or technical cycle. We try to limit packaging. We use water and energy intelligently during production. And we make our production socially responsible.

## EXPERTISE

Our first products were certified 10 years ago. These detergents are biodegradable, non-toxic, and safe for humans and nature. Since then, Cradle to Cradle has been our starting point for all innovations. Our products have to be surprisingly effective.

Cradle to Cradle is a sustainable concept whereby products are upcycled without any loss of quality. This circular philosophy is translated into the motto 'waste equals food'.

The certification program is based on 5 pillars:

1. Use of non-toxic materials
2. Design with reusable or degradable materials
3. Renewable energy
4. Responsible water use
5. Socially responsible manufacturing

# OUR OTHER CERTIFICATIONS

## EU ECOLABEL

EU Ecolabel looks at a product's entire life cycle. This means from extraction of the raw materials until disposal of a product as waste. Our **detergents**, which barely have any impact on the environment throughout the entire life cycle, have been awarded this seal of approval.

## NORDIC SWAN

Greenspeed **microfibre cloths** are the first in the sector in the Benelux to be certified with the Nordic Swan Ecolabel. In this way, we ensure an environmentally responsible manufacturing chain, the highest product quality and proven practical functionality. We take sustainability into account even when selecting packaging.

## MATERIAL HEALTH CERTIFICATE

The Cradle to Cradle Products Innovation Institute issues the Material Health Certificate for products that satisfy the strict requirements for material health, such as **Greenspeed Original**. The research gives insight into the use of chemical substances in order to improve them.

## ECOCERT

**Probio Tab Multi** and **Probio Tab San** are Ecocert certified. Ecocert takes into account four categories: a natural production and processing process, using natural or biological ingredients, responsible management of natural resources, and exclusion of most petrochemical ingredients.

## B CORP

Greenspeed is a certified B Corp company which means we are part of a global community of companies that meet high standards of environmental impact.

# OUR INNOVATIONS: FIZZY FLO

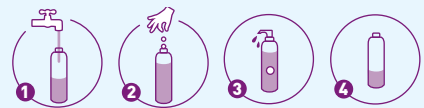

## CIRCULAR AND ENVIRONMENTAL BENEFICIAL

- Based on safe probiotics that nurture the skins microbiome.
- Plant-based ingredients.

## SMALL BUT POWERFUL

- Small but powerful tablet that doses perfectly every time.
- Easy refill so you never run out of hand soap.

## SUSTAINABLE PACKAGING

- 0% single-use plastic.
- A high-quality, glass reusable bottle.

## CO<sub>2</sub> SAVING

- Up to 99% less CO<sub>2</sub> during transport.
- No unnecessary transport of water.
- Reduced consumption compared to liquid hand soap.

# OUR INNOVATIONS: FIZZY FLUSH

Multi-action  
toilet tab

## ✓ CIRCULAR AND ENVIRONMENTAL BENEFICIAL

- Based on safe probiotics and enzymes.
- Plant-based ingredients.

## ✓ SMALL BUT POWERFUL

- Combined power of probiotics and enzymes.
- 1 tab = 1 dose.

## ✓ SUSTAINABLE PACKAGING

- Lightweight pouch, made from 100% PP and 100% recyclable.
- Easily re-sealable.

## ✓ 5-IN-1 ACTION

- |              |                         |                         |
|--------------|-------------------------|-------------------------|
| 1. Cleaning  | 3. Deodorising          | 5. Boosting septic tank |
| 2. Descaling | 4. Preventing blockages |                         |

# OUR INNOVATIONS: PROBIO TAB

Probio cleaning tablet  
for ready-to-use spray

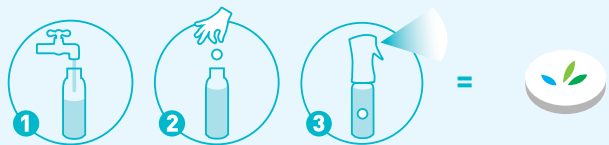

## CIRCULAR AND ENVIRONMENTALLY BENEFICIAL

- Based on safe probiotics.
- Plant-based ingredients.

## SURPRISINGLY EFFECTIVE

- 1 tab = 1 x 300 ml spray.
- Perfect dosage every time.
- Up to 99% less space.
- Store for 3 months.

## SUSTAINABLE PACKAGING

- 0% single-use plastic.
- A spray bottle that you can use for life.

## CO<sub>2</sub> REDUCTION

- Up to 99% less CO<sub>2</sub> during transport.
- No unnecessary transport of water.

# OUR INNOVATIONS: RE-BELLE

The 100% circular microfibre cloth that rebels against waste

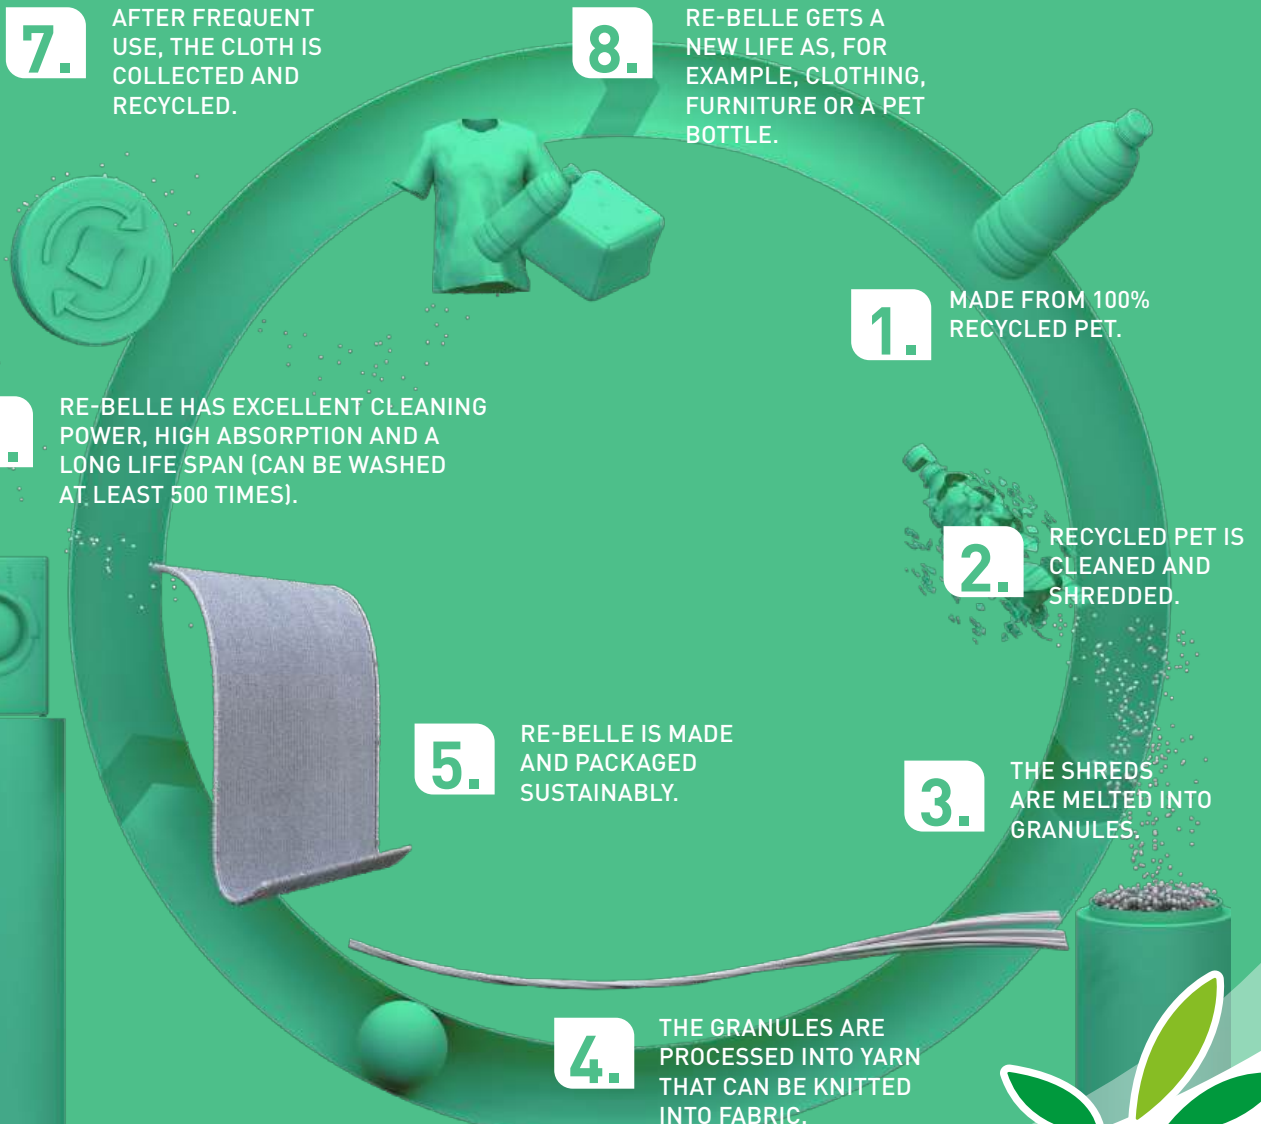

## 100% CIRCULAR, RECYCLED & RECYCLABLE

- Made from recycled PET bottles.
- Reduces CO<sub>2</sub> emissions and waste.
- Sustainably packaged.
- Cradle to Cradle Certified® Bronze.

## OUR INNOVATIONS: LACTO DES

Disinfection and cleaning  
with ingredients of  
plant origin

### EFFICIENT

- Ready to use.
- Kills 99.9% of bacteria\* in 5 minutes.

### REGISTERED DISINFECTANT

- Compliant with BPR (Biocidal Products Regulation).
- Registration number: EU-0006622-0018.
- Available in: Belgium, The Netherlands, Luxembourg, France, UK, Germany, and Switzerland.

### PLANT-BASED INGREDIENTS

- Based on lactic acid.
- Fully biodegradable.

### SAFE TO USE

- No chlorine or alcohol.
- No hazard symbols (CLP Regulation).

\* Bactericidal according to EN1276 & EN 13697 (5 min), levuricidal according to EN 1650 and EN 13697 (5 min) and virucidal (only tested against influenza virus A/H1N1) according to EN 14476 + A1 (5 min)

# OUR INNOVATIONS: CRYSTAL & LAUNDRY BAG-IN-BOX

Sustainable dishwasher & laundry products for automatic dosing

Powerful degreasing &  
hygienic cleaning

Highly concentrated  
laundry products

CONNECTOR BAG-IN-BOX

Visual colour coding between product and connector.

## EFFICIENT AND EFFECTIVE

- Highly concentrated formula.

## SAFE TO USE

- Closed system. No contact with products.
- Leak-proof connection.
- Easy to connect.

## ECOLOGICAL DETERGENTS

- Biodegradable.
- Eu Ecolabel, Cradle to Cradle certified gold

## SUSTAINABLE PACKAGING

- The system results in 20% less packaging waste and over 5 times less plastic compared to a standard 10.5 litre can.

5 x 10.5 l canister

1 x 10 l Bag-in-Box

# OUR INNOVATIONS: PROBIO RANGE

Probiotic cleaners  
with good bacteria

## ODOUR CONTROL

- Preventive and corrective odour control.
- Active absorption of odour molecules.
- Removal of substances that may cause odours in combination with other microorganisms.

## DEEP CLEANING

- Removal of organic dirt deep below the surface.
- Prolonged action thanks to continuous probiotic action for days after cleaning.
- Prevents build-up of organic material on surfaces and in drain pipes.
- Satisfies stringent quality requirements, tested by EU Ecolabel.

## ENVIRONMENTALLY BENEFICIAL

- 100% natural microorganisms.
- Actively contributes to water purification and maintenance of a natural microbial balance when the microorganisms re-enter the environment after use.

## SAFE TO USE

- No hazard symbols (CLP Regulation).
- The highest possible score for the 'healthy materials' component according to Cradle to Cradle criteria.

# OUR INNOVATIONS: C-SHUTTLE

## CUSTOMISED CLEANING TROLLEY

Made of recycled  
materials

### MODULAR DESIGN

- Customisable.
- For use with any mop system.
- For any environment.

### SUSTAINABLE

- Deluxe version with more than 90% recycled plastic.
- Recyclable.
- Long life span.

### COMFORTABLE AND SAFE TO USE

- Highly manoeuvrable and easy to steer (with a load of up to 200 kg).
- Convenient storage.
- Fully lockable with key.

### CUSTOMISABLE

- Customisable doors with your own design or logo.

# OUR INNOVATIONS: CLICK'M C

THE VIDEO

WATCH

Hygienic magnetic  
flat mop system

## HYGIENIC DESIGN

- The smooth, clean finish prevents dirt adhesion on the frame and makes it easily washable.
- Each mop is finished with a sturdy mesh so that dirt quickly disappears from the mop pocket during washing.
- Patented.

## CONTACTLESS

- The mop slides easily off the frame without contact.

## MOP COLOUR CODING

- 4 coloured ribbons (red, green, blue, yellow) mark the mops according to application.

## COMFORTABLE AND ERGONOMIC

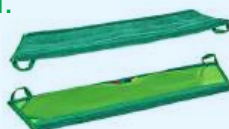

- Lightweight and ergonomic during use.

## 7 DIFFERENT MICROFIBER MOPS\*

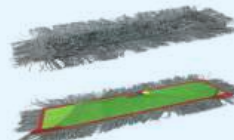

1. Twist Mop
2. Heavy Duty Mop
3. Allround Mop
4. Slide Mop

## OUR INNOVATIONS: HYDRA

THE VIDEO

WATCH

### HYGIENIC

- Mop removal via side loops.
- No Velcro or pockets that can collect dirt.
- Dirt is not spread.

### FAST AND EFFECTIVE CLEANING

- Unique cleaning performance: very high pressure per mm<sup>2</sup>.
- By moving the floor squeegee each time, you can use a clean area of the microfiber mop 6 times.
- Highly absorbent.

### SUSTAINABLE

- Low wash volume compared to standard microfiber mops.
- Hydra Slide received an A for microplastic emission.
- Minimal amount of water required.

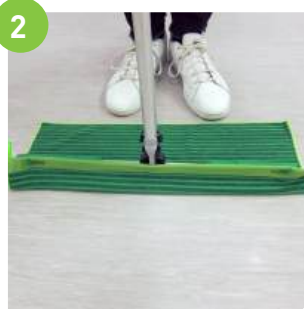

### USER-FRIENDLY AND EASY TO USE

- Deep cleaning with less effort by concentrating the force on a narrow strip.
- The mop is easy to attach to the floor squeegee. The mop is automatically tightened by the springs in the frame.
- For public buildings, hospitals, offices, hospitality, etc.

- \* Minimal Amount of Washes (under standard conditions)  
 \*\* Estimated Amount of Washes (under recommended optimal conditions)  
 \*\*\* 1 wash/day (under recommended optimal conditions)

# CONCLUSION

Michel de Bruin

BEING AND STAYING HEALTHY IS SOMETHING WE ALL HOLD DEAR. I FIRMLY BELIEVE THAT THE CLEANING INDUSTRY CAN HELP US ACHIEVE THIS.

'Cleaning the world with care, together' reflects precisely what Greenspeed stands for every day. We clean together, wherever we are. Together, we want to make sure that every room is sparkling clean. We want to lead the way in the industry with cleaning solutions that have a positive impact on people and the environment.

All of the products we develop need to be surprisingly effective. And we're even going the extra mile, as our goal is to create cleaning products that are circular, healthy, and have a restorative effect in the future. This way the cleaning industry can play a crucial role in tackling the challenges our beautiful planet is facing.
