

WV370

Wet or Dry Vacuum

Numatic

The WV370's, by design, perform totally without compromise in either mode, wet or dry with our full TwinFlo performance specification ensuring exceptional results.

All machines are wet or dry and the change from one to the other is designed to be simple, exchange a dry filter for wet safety float valve and a change of floor nozzle, or vice versa and include the NuCable replaceable cable system as standard.

A tool for every job, always on hand and packs neatly away, with professional A11 accessory kit.

Powerful Cleaning Results

Professional, powerful, long-life TwinFlo bypass motor.

Compact & Convenient

Easy to use, easy to move, easy to change and easy to store.

Ready For Wet Or Dry

Professional results in either mode with accessories provided.

Ease Of Transit

Multi-site use with lightweight design and ergonomic, easy-carry handle.

Stores Neatly Away

On-board tool storage means tools are always to hand and neatly packed away.

Kit A11

Safety Net Filter and Float Assembly

Convenient Carry Handle

High-efficiency ProFlo Wet Floor Tool
