

APPLICATION

Regeneration salt.

- Dissolves quickly and completely.
- For use in domestic and semi- industrial machines.
- Recommended for use in combination with Crystal Powder and Crystal Rinse.

Crystal Salt is a regeneration salt for dishwashing machines. Use Crystal Salt to ensure that you obtain the best possible cleaning results. Crystal Salt does not contain any insoluble particles, and the granule size is monitored constantly to ensure good solubility in the water softener. Crystal Salt is free from chlorine compounds, other halogen compounds, and petroleum-based surfactants. All surfactants used in these products originate from vegetable sources. All ingredients of non-mineral origin are fully biodegradable.

INSTRUCTIONS FOR USE

The replenishment interval for the salt reservoir depends on the water hardness. Check the salt level in the reservoir regularly, or check the visual indicator (if present). The amount of salt needed increases with the hardness of the water, so you must check the salt level more frequently if you have relatively hard water. Keep in a dry place. Always close the package securely after use.

TECHNICAL SPECIFICATIONS

appearance	Powder
colour	White
odeur	Odourless
solubility in water	Good
pH-value	7.5
relative density 20°C	1,000 Kg/L

LOGISTIC DATA

Product

code	432010001	
content	10kg	
dimensions	295x295x 235	mm
gross weight	10,54	kg
net weight	10	kg
EAN-code	5407003310320	

Pallet

units per pallet	48	
layers	4	
units per layer	12	
dimensions	1200 x 800 x 1175	mm
gross weight	505,92	kg
